Education

Vellore Institute of Technology

Bachelor of Technology in Computer Science and Engineering (Specialization in AI - ML)
CGPA: 8.59/10

October 2022 - April 2026

Bhopal, Madhya Pradesh, India

Experience

Detagenix private limited

January 2026 - Ongoing

AI/ML Intern

- Leading a team of 6 AI interns to build an AI-powered CRM+HRMS platform, starting with intelligent CRM modules for lead management, automation, and analytics.
- Enhanced CRM functionality by integrating ML-based lead scoring, AI conversation intelligence, and chatbot-driven workflows for data retrieval, enrichment, and decision support.
- Driving scalable system design with data pipelines, API integrations, and real-time analytics dashboards, with a roadmap to extend AI/ML capabilities into HRMS modules.

Technical Skills

Programming Languages: C++, Python

Frameworks & Libraries: TensorFlow, Keras, Scikit-learn, OpenCV, Pandas, NumPy

Web Development: HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, MongoDB, MySQL

Developer Tools: VS Code, Google Collab, Jupyter, Git, GitHub

Projects

AI-Powered CRM System

React.js, FastAPI, Python, Scikit-learn, MongoDB, Google Sheets API, REST APIs

January 2026 - Ongoing

- * Improved lead conversion efficiency by 22% by deploying an ML-based lead scoring system (87%+ accuracy) using Random Forest with confidence-driven prioritization.
- * Reduced manual data entry by 35% through a scheduled Google Sheets-to-MongoDB ETL pipeline with automated normalization, upserts, and batch ML inference.
- * Enabled intelligent sales decision-making by extracting structured insights (pain points, urgency, next actions) from conversations using LLM-powered analysis of transcripts and chats.
- * Accelerated CRM operations via a natural language chatbot (Gemini API) that converts user queries into validated backend actions for lead retrieval, enrichment, and analytics.
- * Ensured secure and scalable system performance by implementing JWT-based authentication, role-based access control, and real-time analytics dashboards for monitoring lead metrics.

Skillence – AI-Powered Career Intelligence and Placement Platform

React.js, FastAPI, Python, TensorFlow, MongoDB, Azure Document Intelligence

October 2025 - March 2026

- * Enabled end-to-end career guidance and placement workflows through a full-stack platform integrating resume parsing, profile intelligence, and recruiter-facing dashboards.
- * Extracted and structured resume data (PDF/DOCX) using Azure Document Intelligence with fallback parsing, powering downstream modules such as recommendations, analytics, and profile scoring.
- * Improved recommendation quality via a hybrid AI/ML pipeline combining ML-based filtering with LLM-driven ranking, explanations, and personalized learning roadmap generation.
- * Delivered data-driven decision support through ML modules (salary prediction, job trend analytics, autoencoder-based skill recommendation) on a scalable FastAPI architecture with async processing and secure JWT/OAuth access.

Achievements

- * Selected for **Amazon ML Summer School 2025**, among **3,000 students across India**, and received a **Letter of Acknowledgment**.
- * National Semi-Finalist, **Flipkart GRiD 7.0 (2025)**, received certificate of Achievement in a national-level competition.
- * Secured **2nd Place** in a university-level **Robotics and Coding Competition**.

Certifications

Blockchain Developer Certification – IBM Career Education Program

MERN Full Stack Developer Certification – Issued by Ethnus via Codemithra

Applied Machine Learning in Python – Issued by University of Michigan via Coursera
